## **Discover the engineer within through Water Rockets**

TOLEDO, Ohio –Join Imagination Station as they conclude National Week of Making with the Water Rocket Challenge. This exciting challenge gives visitors the opportunity to design, build and launch their own rocket.

The science center will provide everything that you need to build the rocket. You just need to bring the idea and the willingness to put it together!

“Water rockets are a great way for people to use creativity while they work through the scientific method,” said Sloan Eberly Mann, Director of STEM Education for Imagination Station. “Visitors can control variables and observe their rockets in flight all while learning and understanding the principles of aeronautics”.

Imagination Station, Toledo’s Science Center, is a vital non-profit organization that is an integral part of Toledo’s economic, educational and social landscape. With hundreds of hands-on exhibits and demonstrations, Imagination Station delivers a multi-sensory experience that’s as fun as it is educational. Imagination Station provides a critical layer of science enrichment by serving as an educational partner for teachers, schools and parents. It’s with a thoughtful blend of exhibits, experiences, education and excitement that Imagination Station inspires visitors to pursue STEM careers in Northwest Ohio.

All activities are included in the cost of admission. For more information, please call 419.244.2674 or visit [www.imaginationstationtoledo.org](http://www.imaginationstationtoledo.org).

**WHAT:** **Water Rocket Challenge**  
Lucas County kids receive free admission every Saturday

**WHEN:** **June 25, 10am – 4pm**  
**June 26, noon – 4pm**
